
Stand-Up Minutes

Week of: June 8th - June 14th

June 9th

Meeting Type	In-Person Tutorial Stand-Up
Attendees	Everyone - Calvin, Shahveer, Niveetha, Abdul, Shamrita

Discussion and Progress

- The team planned how the major use cases would be distributed across the project demos.
- The team met with the professor and received approval for the proposed development process.
- Major GitHub issues were created and linked to project milestones.
- The project technology stack was finalized.

Decisions Made

- Each major use case will serve as the main focus of Demos 1 through 3.
- Demo 4 will focus on remaining issues, final integration, and testing.
- The finalized technology stack is React, Express, MongoDB, Cypress, and Jest.

Action Items

Action Item	Owner	Status / Due Date
Create sub-issues for each major issue and assign them to the appropriate demos, beginning with Demo 1	Shahveer	Before development begins

June 11th

Meeting Type	Team Stand-Up
Attendees	Everyone - Calvin, Shahveer, Niveetha, Abdul, Shamrita

Discussion and Progress

- The GitHub issue structure and project organization were completed.
- The preliminary React, Express, and MongoDB setup was assembled.
- The team shifted its focus to completing the work required for Demo 1.

Decisions Made

- The immediate team priority is the completion of Demo 1 work, including Use Case 1, repository documentation, issue tracking, and meeting minutes.
