Discussion and Progress

- Use Case 2 and Use Case 3 are completed
- The class diagram needs to be updated
- Update stand-up meeting minutes
- Add more Product screenshots
- Test Cases need to be implemented as well
- Create an issue for warnings/exceptions

Decisions Made

- Demo 2 will be on Tuesday 3:00 pm, everyone will be attending
- Next standup meeting: Sunday at 6 pm

Action Items

Action Item	Owner	Status / Due Date
Merging the Code into Develop + Update the Use Case Diagram + Add more Product Screenshots	Niveetha	Thursday July 2nd
Test Cases	Shahveer	Friday July 3rd
Create an Issue for Warnings/Exceptions + Update Stand-up Minutes	Shamrita	Thursday July 2nd

July 5th

Meeting Type	Team Stand-Up
Attendees	Everyone - Calvin, Shahveer, Niveetha, Abdul, Shamrita

Discussion and Progress

- Demo Structure & Order
 - 1. Calvin - Discuss about loading riding-related data
 - 2. Shamrita - Front-End + API for importing the ridings JSON file and implementing ridings map view

- 3. Abdul - Research login and authentication code
- 4. Niveetha - Research view and individual donation data
- 5. Shahveer - Test cases + What's next for our sprint 3
- Overall, Sprint 2 has concluded, and all code has been pushed to develop branch
- Niveetha is responsible for creating a use case for prediction analysis

Decisions Made

- Ask the following questions for our demo:
- ◆ How can we give you the key, via .env.example?
 - ◆ Do we need to give access to our mongo db directly?
 - ◆ Release notes: how should we implement?
